Minnesota AgrAbility Peer Support Network

Allen Olsen

Lives: near Canby, MN

Farm Operation: part-time - dogs, corn, soybeans, CRP acres

Injury: Allen has paraplegia. He sustained a spinal cord injury in an accident.

Allen wants to participate with Fenceline because: “I hope to help someone by showing them what I have been able to accomplish.”

Barrier: Allen uses a wheelchair for mobility. He built this ramp to access this smaller tractor. The ramp has a hinged piece which fits between the ramp and the back wheel to allow a shorter transfer with a transfer board. Allen is looking into hand controls for the brakes.

A Round Groove lift by Life Essentials helps Allen to enter his NH TM165 tractor. Hand controls for the brake and clutch complete the modifications.
